

NEW AGE METALS – LITHIUM DIVISION

EXPLORATION AND DEVELOPMENT

SEEKING JOINT VENTURE PARTNERS

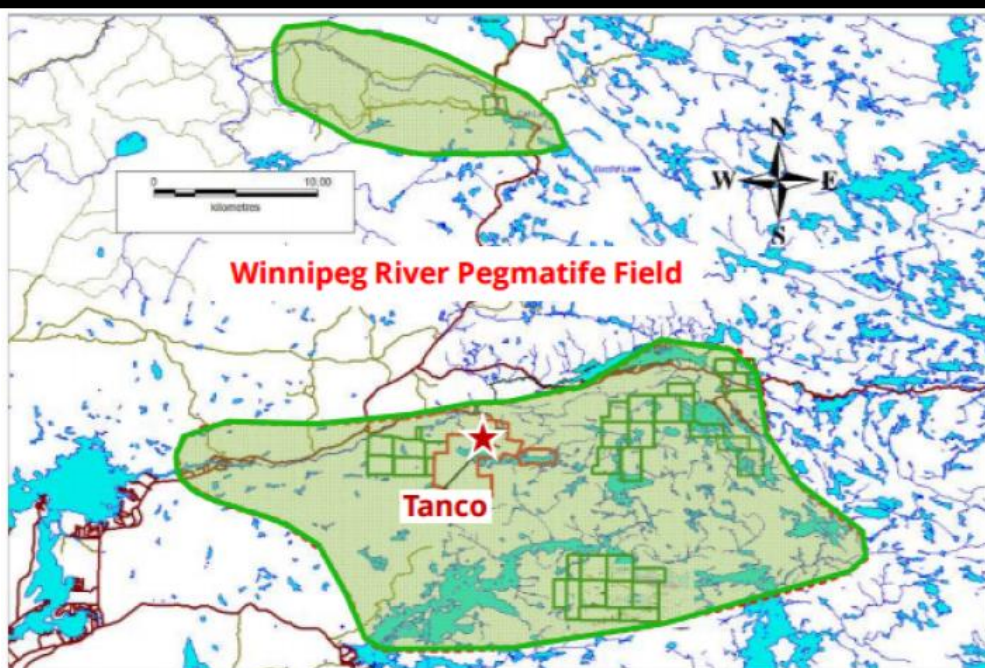

TSXV: NAM OTCQB: PAWEF FSE:P7J.F

Winnipeg River Pegmatite Field

- Five 100% owned Lithium Projects
- **Three out of the five are Drill Ready**
- Projects are located in southeast Manitoba, ~125 to 150 km northeast of Winnipeg
- Excellent infrastructure
- The Winnipeg River Pegmatite Field is host to numerous Lithium rich Pegmatites and also host to the world-class Tanco Pegmatite
- The world-class Tanco Pegmatite is a highly fractionated lithium-cesium-tantalum (LCT) type pegmatite that has been mined at the Tanco Mine since 1969 for Li, Cs, Rb and Be ores
- **New Age Metals is the largest mineral claim holder in the Pegmatite Field with over 6000 hectares of land in five projects**

“Best place to look for a mine is in a shadow of a headframe”The Tanco Mine has been mining a pegmatite since 1969

Spodumene Blades in Lepidolite – Silverleaf Pegmatite

LITHIUM TWO PROJECT

- Field work in 2016 confirmed that the Eagle and FD5 Pegmatites contained significant surface Spodumene
- Best surface sampling from the Eagle Pegmatite returned 3.04% LiO₂ and 2.08% LiO₂ from the FD5
- The Eagle Pegmatite is ~1100 m in length and up to 12 meters wide
- Historic drilling from 1947 defined 545,000 tonnes of 1.4% LiO₂ drilled to a depth of 60 meters. Pegmatite is open to depth.
- Both pegmatites are drill ready

LITHIUM ONE PROJECT

- Field work in 2016 sampled several historical Pegmatites
- Best surface assay results were 4.33% LiO₂ and 0.04% Ta₂O₅ from the Silverleaf Pegmatite.
- Several of the other Pegmatites in the project area yielded Lithium values from Lepidolite and Spodumene
- Approximately 40 Pegmatites are estimated to exist north of Greer Lake with around 100 to the south of the lake
- The SilverLeaf Pegmatite was excavated for Spodumene in the 1920's. It has a surface exposure of 80 m X 45 m
- Several drill ready targets

LITHMAN WEST PROJECT

- Historical rock and soil geochemical anomalies.
- Anomalies have not been drill tested
- Drill ready
