NAME CHANGE: PACIFIC NORTH WEST CAPITAL TO NEW AGE METALS

Effective January 31, the company has been renamed to New Age Metals, to better reflect the evolving uses of both Platinum Group Metals and Lithium in the world today. We wish to thank those that provided the tremendous positive feedback on the name change.

TREVOR RICHARDSON, NEW PRESIDENT/COO

New Age Metals was pleased to announce in March of this year the promotion of Trevor Richardson to the role of President/COO. Previously Trevor worked in Business Development with New Age Metals. Trevor brings with him vast knowledge in the resource space, along with an excellent work ethic and vast contacts in the resource industry. All great ingredients to move our River Valley Project forward efficiently and effectively.

NEW AGE METALS RAISES \$2.6 MILLION

New Age Metals set out to raise \$1.5 million in the spring to fund the continued drilling of both the River Valley project and the Lithium projects in Manitoba. Management was pleasantly surprised to find investors extremely positive on the outlook set out by the company, and brought in an additional \$1.1 million over their target, for a total of \$2.6 million.

NEW AGE METALS COMMENCES DRILLING PROGRAM AT RIVER VALLEY

New Age Metals contracted Abitibi Geophysics to begin geophysical work on the newly identified Pine Zone in the North of the property. This geophysical work will aid in the generation of new targets for drill testing later in 2017.

*** RIVER VALLEY SITE TOUR ***

Following on our successful site tour last year, New Age Metals is pleased to welcome you to visit the River Valley Project in Sudbury Ontario to see first hand Canada's largest undeveloped Primary PGM resource. The tour is schedule for August/September, please register early for this event as the space sold out quickly last year. For more information or to register, please contact Paul Poggione in Corporate Development at 613-659-2773. After the tour last year, the Sudbury Star wrote an extensive report on New Age Metals:
